

How to change your DNS easily?

Windows 10 Users

1. Download this file [HERE](#)
2. Right-click on the file, choose "Run as Administrator"

Mac Users

1. Open "Terminal" app from Launchpad
2. Copy and paste the following command and press enter to execute:

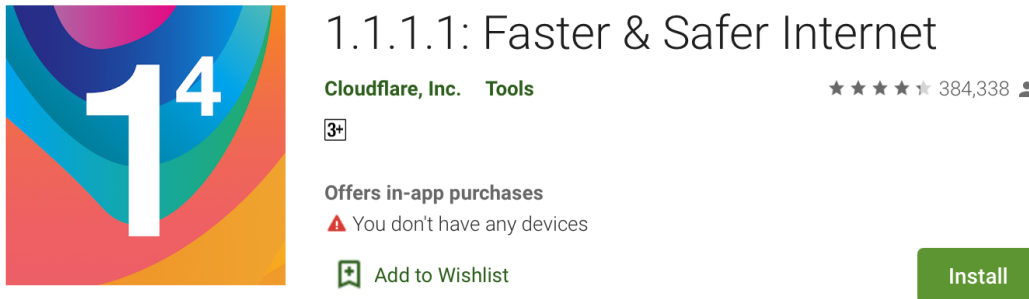

```
networksetup -setdnsservers Wi-Fi 1.1.1.1 8.8.8.8 8.8.4.4
```

- *If you are using Airport, execute this command:*

```
networksetup -setdnsservers AirPort 1.1.1.1 8.8.8.8 8.8.4.4
```

Android Users

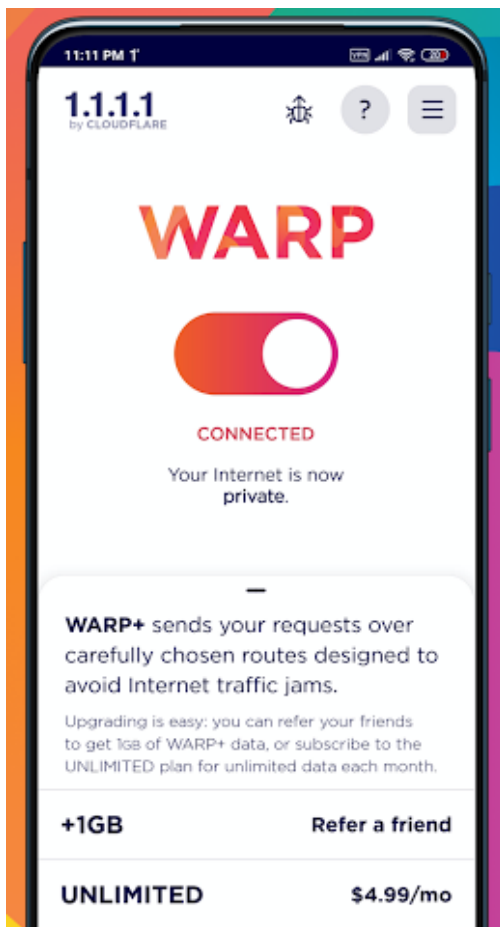

1. Visit <https://1.1.1.1>, or
2. Install 1.1.1.1 App from Play Store:
<https://play.google.com/store/apps/details?id=com.cloudflare.onedotonedotonedotone>

The image shows the Google Play Store listing for the app "1.1.1.1: Faster & Safer Internet" by Cloudflare, Inc. The app icon features a large white number "1" with a smaller "4" to its upper right, set against a colorful, abstract background of overlapping circles in shades of blue, green, orange, and red. The app title is "1.1.1.1: Faster & Safer Internet". The developer is listed as "Cloudflare, Inc." with the category "Tools". It has a rating of 4.5 stars from 384,338 reviews. The app is rated "3+" and includes in-app purchases. A warning icon indicates that the user does not have any devices. There is an "Add to Wishlist" button and a green "Install" button.
